APPROACH AND METHODOLOGY

India boasts an impressive installed capacity As of October 2024, India's total energy installed capacity has reached to 452.69 GW. The electricity generation target (Including RE) for the year 2023-24 has been fixed as 1750 billion Unit (BU). i.e. growth of around 7.2% over actual generation of 1624.158 BU for the previous year (2022-23). The generation during 2022-23 was 1624.158 BU as compared to 1491.859 BU generated during 2021-22, representing a growth of about 8.87%.

Electricity is a highly tradable commodity in the market, crucially dependent on timely availability and matching supply to demand. Power transactions involve various stakeholders such as distribution companies (DISCOMs), generation companies (GENCOs), power exchanges, and bulk consumers. A delicate balance in the national electricity grid ensures that demand is met efficiently with the available supply.

These dynamics have paved the way for a specialized market segment known as "Power Trading," envisioned under the Electricity Act of 2003. Power Trading facilitates bilateral agreements between generators and distributors, mediated by traders, to optimize energy distribution and manage seasonal demand fluctuations effectively.

Shakti Vidyut LLP (SVLLP), aims to play a pivotal role in bridging supply-demand gaps and advancing energy optimization in India's power market. SVLLP while engaging in its trading activities is committed to:

- Exploring uncontracted generation potential in the market.
- Assisting industrial and commercial customers in energy cost optimization through power trading insights and regulatory approvals for Open Access.
- Enabling generators and Open Access consumers to trade power in the open market.
- Supporting generators (both conventional/non-conventional) in maximizing their revenue potential through intelligent participation in Trading, Renewable Energy Certificate (REC) and other market segments.

SVLLP adheres strictly to regulatory guidelines set by the Central Electricity Regulatory Commission (CERC), aligning with the Commission's development goals and contributing to the growth of India's power sector.

M/s Shakti Vidyut LLP is organisation predominantly working in energy consulting domain including Energy Efficient Solutions, Environmental studies, solar consulting, power purchase optimization strategy, Perform, Achieve and Trade (PAT) and technical services for optimization of energy resources.

Leveraging its robust organizational capabilities, the Company is exceptionally well-equipped to conduct power trading activities with utmost efficiency and effectiveness, The core team will be backed by a group of highly qualified personnel, enabling the expansion of trading business across PAN India.

We look forward to contributing significantly to the sector and delivering exceptional services to our partners and stakeholders.

Notes forming part of the Special Financial Statements for the period 25-Apr-2026 to 24-Sept-2026

NOTE – 9

i. The Limited Liability partnership is incorporated on April 25, 2026 to carry on the trade of electrical power, renewable energy certificates etc. and also to carry out work for Business Responsibility and Sustainability Report (BRSR) along with energy and power consultancy.

Basis of preparation

ii. These financial statements are prepared in accordance with the Generally Accepted Accounting Principles in India to comply with the Accounting Standard. The financials have been prepared under the historical cost convention on accrual basis.

Accounting Policies

iii. Use of Estimates

For preparation of these financial statements, management have made estimates and these estimates are made on our best knowledge of current events and actions. The actual results could differ from these estimates.

iv. Revenue Recognition

Revenue from the services is recognized when the performance obligation is satisfied and confirmed by the customer. Further, the revenue is measured at contractually agreed consideration.

v. Property, Plant & Equipment and Intangible Assets

The LLP does not own any property, plant and equipment and Intangible Assets during the reporting period. The appropriate accounting policy for the same shall be adopted during the future reporting period in which it is owned.

vi. Depreciation

As the LLP does not own any property, plant & equipment and Intangible assets during the reporting period, no depreciation is charged in the statement of the profit & loss. The appropriate accounting policy for the same shall be adopted during the future reporting period in which it owns any property, plant & equipment and Intangible assets.

vii. **Contingent Liabilities and Provisions**

The LLP makes a provision when there is a present obligation as a result of a past event where the outflow of economic resources is probable and a reliable estimate of the amount of the obligation can be made.

A disclosure is made for a contingent liability when there is a:

(a) Possible obligation - the existence of which will be confirmed by the occurrence/ non-occurrence of one or more uncertain events, not fully within the control of the LLP;

(b) Present obligation – where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

(c) Present obligation – when a reliable estimate cannot be made.
